**Parents As Partners Corner**

**FROZEN ANTS**

Ask your preschool child to peel a banana and cut it into two or three small pieces with a plastic knife. Spread peanut butter on each piece, and then roll each piece in raisins. Wrap loosely in waxed paper and freeze. Your young child may want to eat right away so have more than one banana available. Have fun!

**Adam**

During this month our little ones will be learning about different forms of transportation. We will be singing funny songs related to the theme of the month such as; "Wheels on the Bus" "Row, Row, Row your Boat" and reading the story "The Little Engine that Could". For art, we will make a transportation collage to decorate our classroom.

**Benjamin**

This month our children will learn about various forms of transportation through art work. At circle time we will practice the letter sounds for Y, Z, A, B, & C. and the shape of the month. Throughout the day the teachers will point out the colors black, white and grey. We will also be singing number songs to incorporate the numbers 13 & 14.

**Lori**

This month we will be learning about "Nature". During circle time we will be charting the weather for each day. We will be reading science books related to nature and weather conditions. We will also be celebrating friendships by exchanging cards and making heart bracelets. At group time we will practice the numbers and letters of the month.

**Lorraine**

Our theme for the month of February is "Nature", we will be learning about weather conditions, the moving earth, rocks and stones. Each week we will take a nature walk and collect rocks, leaves and just enjoy the beauty of our neighborhood. We will also be learning about China, its customs and traditions, and implement the letters & numbers of the month to our daily activities.

**Just a reminder**

- Dear parents; please label all your child's clothing, specially sweaters and jackets.
- Please remember to sign your child in and out in their classroom as well as in the office. Thank you
